

FastTrack™ Angler 385fta

Standard Features

- NMMA Certified
- Patented (U.S. Patent #8,286,573 2) outside Drop-Stitch high pressure keel with rigid NeedleKnife™ bow mold for fast and true tracking
- Heavier outside hull material
- Double layer 1000 Denier PVC on tubes
- Built-in rod-holders for up to 4 rods and cut-outs for multiple tools & lures
- 4 Deluxe one way recessed air valves
- 2 screw type floor drains that open and shut
- Bow & stern deck rigging
- Separate inner high pressure Drop-Stitch floor for greater rigidity & structural strength
- Large removable skeg at rear to control yaw and improve speed
- 18 D-Rings to secure seats and gear
- Bow and stern grab handles
- Sun & saltwater resistant hull material
- Nylon carry bag, repair kit & printed instructions
- Rated for Class II rapids.

Featuring Patented External Drop-Stitch NeedleKnife™ Keel.

Re-inforced to be Super Rugged and Super Tough!

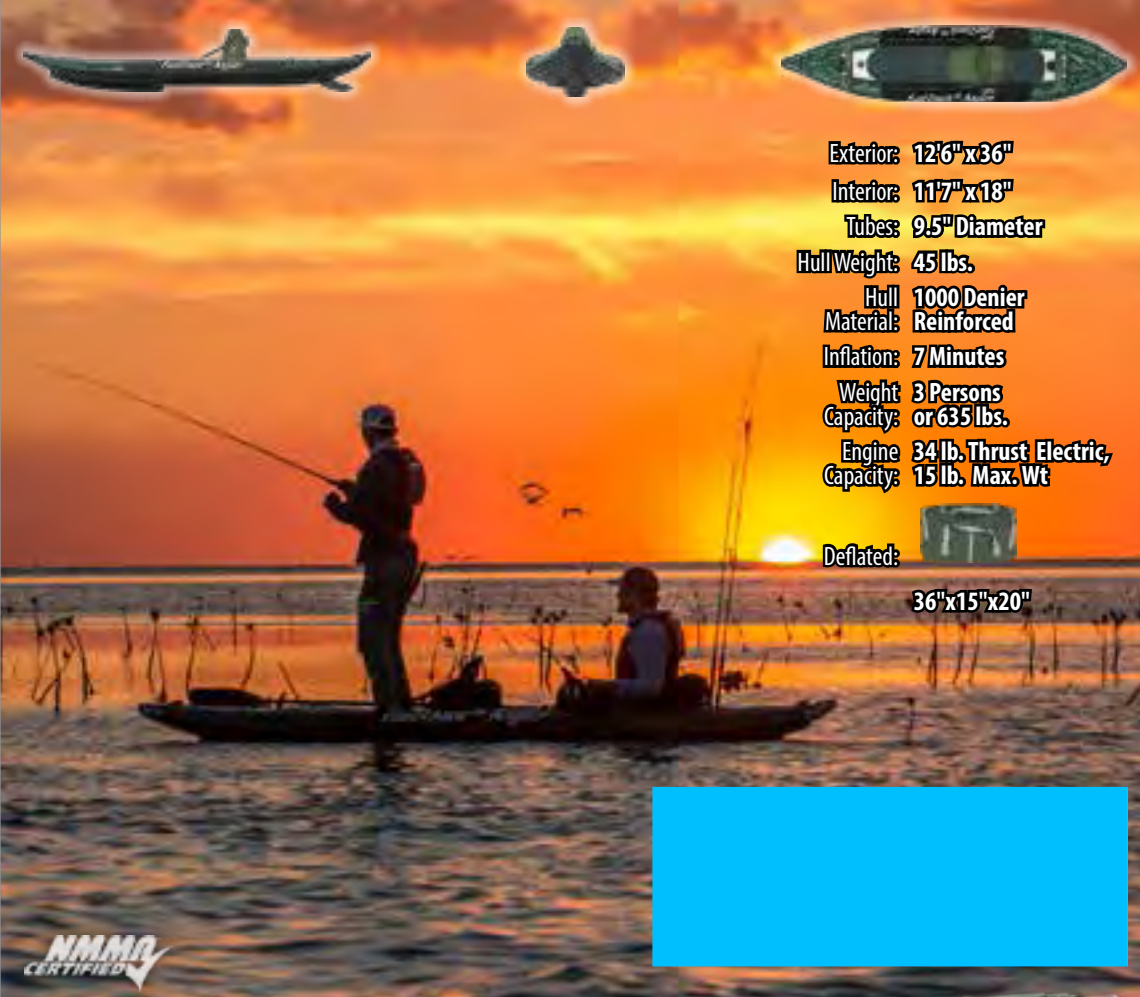

Sea Eagle FastTrack™ Angler Kayaks are made with a thicker hull fabric and an extra layer of fabric where an angler needs it most in order to insure that this is the toughest, most stable and most safe fishing kayak out there.

Featuring our state of the art "NeedleKnife" rigid molds at both the front and back of our outside high pressure Drop-Stitch keel to provide cleaner entry and exit through current, wind, waves and water. This allows the 385fta to paddle faster and easier with greater glide in a wide variety of open water conditions.

The Sea Eagle FastTrack Angler 385fta is perfect for big lakes, open bays, long meandering rivers and intimate salt marshes... anywhere there is water and fish. Best of all, the 385fta is comfortable for one or two anglers. So you can go solo with a lot of gear or 2 paddlers with limited gear.

All FastTrack™ Kayaks come with Slide In Swept Back Skeg.
